HELPFUL HINTS

- Keep your phone fully charged and plugged in
- Place your phone where it can transmit the best signal
 - Not in the bilge or under a bunch of gear
- Only load the app on 1 device on the boat
 - The device on the boat..... not in the car
- Do not use the device with the app for tracking the fleet
 - Use another phone and go to kattack.com to see the race
- Make sure the location settings are set to “While Using the App”
- Keep the app running
