Transpac-Tahiti Race competitors & sponsors –

We have been carefully monitoring the ever-changing public health restrictions in both California and Tahiti related to the recent outbreak of the Coronavirus pandemic.

Given the recent tightening of these restrictions to extreme levels where it makes it impossible to prepare or plan for both the race and its logistical support, we feel the conditions are not safe nor suitable to proceed as planned for a race start in the next two months.

Therefore we feel it best for now to postpone the May 28 start of the Transpac-Tahiti Race.

While our fleet is small, we still have concerns for everyone's health and safety, and we want to be fully compliant with the letter and spirit of the current regulations.

Please feel free to reach out to us and discuss your thoughts or concerns, your feedback is valuable to us.
